

Erick Morillo

How many DJs have had a street named after them? Morillo got the honor in his hometown of Union City, New Jersey. "The street I grew up on has been named Erick Morillo Way. Who'd have thought that my time spent there during my turbulent teens would result in this?" says the producer, who virtually pioneered the banging, ear-rattling style of hard house back in the late '90s. As a resident at Marquee and a frequent guest at Tao, Morillo often decamps to Vegas. "I've had some pretty wild nights in this city," he says. "My advice to anyone coming to Vegas is to keep it short and sweet. Any longer than three days here and you could quite possibly lose your marbles ... and a shitload of cash to boot!"
